FURNITURE SYSTEMS

Educational Furniture Systems

Stapletons Systems Ltd specialise in the design, fabrication and installation of storage and working space in the educational marketplace.

Based in Leicestershire we are centrally located giving us good access to the motorway and road network.

Main areas of operation

- Art Rooms
- Libraries
- Kitchens
- Classrooms
- Science Labs
- IT Rooms
- Changing Areas
- Washrooms
- Food Technology
- Office & Staffrooms

Storage Space

We undertake projects ranging from the simple supply of single modular units through to complete turnkey installations.

Whilst we offer a standard range of modular units for typical rooms we are also able to offer a bespoke design, manufacture and installation package so that as a client you need not compromise.

- Fixed, removable, castor and suspended cabinets
- Wall mounted, bench mounted or floor mounted storage units
- Serviced options to include incorporating gas, electric and water outlets

Working Space

With made to measure benching we can ensure that we make good use of every space.

- Three leg configurations as standard
- "T" Frames, "C" Frames and "D" Frames
- Legs manufactured from fully welded mild steel box sections with painted or powder coated finishes

Classrooms

We understand the need to have tidy, organised classrooms and with our assorted cupboards, tray units and shelving we can create the perfect solution to your problem.

- Various heights from Primary school to University
- Carcass units manufactured from M.F.C
- PVC Lippings to all units
- Choice of door handles
- A wide range of surface laminates to create individual styles and finishes

Domestic Science Labs

We can design a domestic science lab to suit your needs with the emphasis on storage and hygiene. With deep drawers for pots and pans and cookers that are built-in this creates a hygienic environment in which to teach and study with a tidy and clean look.

Library

Having our own design facility enables us to visualise your ideas and make them come to life. A library should be an area to study in, uncluttered but tranquil and cosy, with our help we can create this ideal environment.

Science Labs

Working alongside you we can design science laboratories that consider the need to have practical and theory working areas and also bearing in mind the commitment to good supervision.

I.T Suites

We can provide an I.T workspace ranging from a small area within a library up to a complete dedicated facility. Electrical and data outlets can be positioned to suit your individual requirements.

Worktops

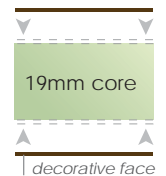

We can offer a wide range of different worktops including:

- Trespa solid laminates
- Post- formed laminated particleboard
- Epoxy resin or solid Iroko

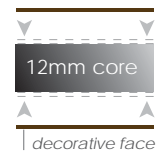

Panel Types

We use a combination of solid grade 12mm laminated boards and 19mm High Pressure Laminated (HPL) boards with a Moisture Resistant MDF core which are durable and suitable for wet and dry environments.

High Pressure Laminate board

Compact board
